

A photograph of a construction site. On the left, there is a long wall of scaffolding. In the center, two construction workers wearing white hard hats and orange safety vests are standing on a concrete floor, looking at a set of blueprints. The background shows a concrete structure with several columns and a bright light source, possibly a window or an opening, creating a lens flare effect.

## **SGS ACQUIRES THE ASSETS AND OPERATIONS OF FORENSIC ANALYTICAL LABORATORIES, INC., CA, USA**

SGS is pleased to announce the acquisition of the assets and operations of Forensic Analytical Laboratories, Inc (FALI), based in California and Nevada, USA. In combination with SGS's existing operations, this further strengthens our global leading position in industrial hygiene testing, part of our Environment, Health and Safety business. Combined, they provide the EH&S industry a total solution partner for laboratory analysis in the built environment.

SGS North America Inc and SGS Forensic Laboratories pair the most respected, value-minded client partners and experts to support the analytical science in context needed for our Industrial Hygiene, EHS, Construction, Commercial, and Governmental clients. With the ability to turn analytical data into useful information for critical decisions on exposures, contamination, pre-demolition inspections, and a host of other challenges safety professionals face daily.

## **SGS FORENSIC LABORATORIES CAPABILITIES**

- Asbestos Microscopy
- TEM Asbestos Microscopy
- Material & Particulate Characterization
- IH/Heavy Metals
- Microbiology & Bacteriology
- Media and equipment

## **SGS GALSON CAPABILITIES**

- Free Pump Loan
- Free Badge Programs
- VOCs by passive, active and canister
- Dust
- Acids
- Metals by ICP
- XRD for Silica
- Equipment Rental
- Smart Sense Remote Continuous Monitoring & Sample Initiation System

## **ENVIRONMENTAL ANALYTICAL CAPABILITIES**

- Water/Soil/Solids
- Sediment/Elutriate/Tissue
- Energetics/Explosives
- Waste Characterization
- Ultratrace High-Resolution Analysis
- PFAS and Other Emerging Contaminant Analysis

## **ENVIRONMENT, HEALTH & SAFETY USA LABORATORY SERVICES**

"This acquisition supports the growth strategy of our environment, health and safety services. It strengthens our industrial hygiene testing network in the US by adding a strong presence on the West Coast and it facilitates entry into the North American asbestos testing market," said Frankie Ng, CEO of SGS.

## **WHY SGS**

SGS is the world's leading inspection, verification, testing and certification company. SGS is recognized as the global benchmark for quality and integrity. With more than 97,000 employees, SGS operates a network of over 2,500 offices and laboratories around the world.
